Notes

• Total fully-loaded staff cost of approximately £3.95m equates to 21.1% of FY25 turnover, in line with UK industrial manufacturer benchmarks.

• Directors' remuneration and pension total £140,475 across two shareholders (Mark and Louisa Wood). This is materially below a market-rate replacement CEO cost for a business of this scale and requires an owner remuneration normalisation adjustment in any purchaser LBO model.

• Richard (CEO, 15 years tenure) named by founder-shareholder Mark Wood as succession CEO. No external management change planned post-transaction.

• Founder-shareholder Mark Wood has committed 5% of the sale proceeds to Richard as retention.

• Full leadership team names and tenures to be obtained at DD.
